WE’VE BROUGHT THE COMPUTER AGE HOME.™
THE ATARI 400™
COMPUTER SYSTEM

The ATARI 400 Computer System is designed to be used by just about anyone. So, now you don't have to be a wizard to enjoy the wizardry of computer technology. With the ATARI 400 Computer System all you need is the ATARI 400 Computer, one or more of the ATARI starter kits and any television set! The revolutionary ATARI 400 Computer is sophisticated, easy to use and easy to afford. It's perfect for the entire family. With it you can play the ultimate in computer games, teach yourself new subjects and skills, hook up to major information networks and personalize your computer by programming it yourself. It's revolutionary, and no wonder; its from Atari.

The ATARI 400 Computer is designed specifically for home use. Its programmable, versatile
THE PROGRAMMER™

The Programmer Kit helps you personalize The ATARI 400 Computer by teaching you to write your own programs. In fact, you can learn to write your own game programs! And you can write programs to solve business and science problems or even play music on your computer. The Programmer includes an ATARI BASIC Computing Language cart, the ATARI BASIC Reference Manual and the ATARI BASIC Self-Teaching Guide that teaches you how to program step-by-step. BASIC stands for Beginners' All-purpose Symbolic Instruction Code, and is designed to be easy to learn.

I

THE EDUCATOR Kit makes learning fun and learning new subjects easy. Children can teach themselves new subjects in their own home. The Educator comes with an ATARI Recorder to load programs, an ATARI BASIC Computing Language cart, the States & Capitals program cassette. Just insert the cassette in the recorder, load the tape and learn! You'll find math and self-improvement programs available including ATARI Energy Czar™, Hangman, Conversational Spanish, Italian, European Countries & Capitals, My First (with “turtle” graphics), Touch Typing, Statistics Programming™ 1, 2 and 3, Kingdom™, Scram-Plant Simulation), Music Composer™, etc.

*A Control Data CYBERWARE™ product made from Control
THE EDUCATOR™

and powerful. Yet it's simple to use. It communicates with you by television screen or speaker, has a large capacity 16K memory and features a pressure-sensitive typewriter keyboard. And it's flexible. You can add printers, program recorders and more to build the system that's just right for your needs. And because the ATARI 400 Computer is programmable, you can customize it to handle your own personal applications.

ATARI Starter Kits were created to get the ATARI 400 Computer into action fast—at a price you can afford. They contain all the materials you need to program and use the computer in any of four fields of interest: entertainment, education, computer communications and programming. Once you have one of the Starter Kits you can continue to expand by adding more programs or accessories.
