in your computer evaluation... have you checked the hidden plus factor?

# with the Bendix G-15 Computer, it's EXPERIENCE

There's a reason for the continuing leadership of the Bendix G-15 among small and medium-scale computers. The reason is experience—for over five years—in nearly 400 installations—in more than 1000 different applications.

Behind this experience is superior performance, real economy, and proven support—qualities which have made the G-15 preferred by thousands of engineers in industry after industry.

The G-15 achievement record is outstanding. It continues to be a leader in its field—the number of new G-15 users is growing every month. Investigate the proven capabilities of the G-15 today. See for yourself why G-15 "experience pays" ... and how it can work for you.

# "A solid reliability record"

"A vigorous users Exchange Organization"

"Unmatched capability in its price class"

"Widest selection of input-output accessory units"

"Programming support in depth"

"Ease of use"
